--	--	--	---	--

Every level is designed so the organisation can understand what it receives, what it is for and what the next step may be.

What each level includes

Every item is explained in plain language. No unnecessary acronyms and no technical knowledge assumed.

Free · €0 · 20-25 min Understand your starting point.	
Self-guided online diagnostic	A short questionnaire that does not require technical knowledge.
Immediate indicative result	At the end, you receive an initial view of your current position.
Report with main gaps	We show what is working and what needs attention.
Recommended next step	We suggest where to start, with no obligation to buy.

Ready · From €2,250 · 3-4 weeks Validate your situation and set priorities.	
Professional diagnostic review	We review your answers with you to check they reflect reality.
Preliminary AI inventory and scope	We identify which AI tools you use and what part of the organisation will be assessed.
Initial risks and gaps	We highlight the most important risks and what is missing.
Gap analysis against AI Act / ISO 42001	We compare your position with these frameworks to identify priorities.
Prioritised roadmap	We order actions by importance and urgency.
Executive report and results session	You receive a clear summary and we explain it in a meeting.

Implement, demonstrate and maintain

The next levels add structure, controls and monitoring. Every deliverable remains explained directly.

Control · From €5,900 · 8-10 weeks

Put the foundations of AI governance in place.

AI policy and rules of use	A simple document explaining how AI may and may not be used.
Roles and responsibilities	We clarify who decides, who oversees and who follows up.
Formal AI systems inventory	We create an organised register of AI tools and systems.
Basic AI risk management process	We define how to identify, assess and treat AI risks.
Approval process for new uses or changes	We set a review step before major AI additions or changes.
Practical records and evidence	We prepare templates and records showing decisions and controls.
Basic team training	We explain how the rules apply in day-to-day work.

Compliance+ · From €9,500 · 12-16 weeks

Get ready to demonstrate compliance.

Practical AI Act alignment	We identify relevant obligations and turn them into concrete actions.
Governance model and responsibilities	We define how AI decisions are made, reviewed and documented.
Risk and impact assessments	We document risks and potential impacts of the most relevant AI uses.
Human oversight and proportionate controls	We define when people must intervene and which controls are reasonable.
Traceability and audit-ready evidence	We organise documents and records so actions can be demonstrated.
ISO/IEC 42001 audit preparation	We review readiness for audit; Céntrika does not act as a certification body.

GaaS · From €900/month · Onboarding 4-6 weeks + ongoing

Keep AI governance up to date.

Updated AI inventory	We keep your AI tools and systems register up to date.
Review of new uses and providers	We review significant additions before they create unnecessary risk.
Monitoring of risks, controls and incidents	We periodically check what has changed and what needs attention.
Maintenance of documents and evidence	We update policies, records and evidence when needed.
Periodic regulatory change review	We flag relevant changes that may affect your AI governance.
Periodic report and expert support	You receive a clear status summary and support on questions and priorities.

Where should I start?

I only want to understand where I stand	Free
I need validation and priorities	Ready
I want to put governance foundations in place	Control
I need evidence and audit preparation	Compliance+
I need to keep governance up to date	GaaS

Before you engage us

Indicative starting prices, excluding VAT. Final scope depends on the number of AI systems, organisational complexity and information availability. Céntrika does not replace legal advice and is not a certification body. If anything is unclear, we explain it before engagement.

Start with the free diagnostic or speak with Céntrika. We will help you choose without unnecessary complexity.
